

GTA Briefing Session Sharing

Bojack F. Chen (陳峰)

Year-4 PhD, ECE Department, professor Philip K. T. Mok

Personal page: <http://www.ece.ust.hk/~fchenaf>

What's the biggest difference between UG and PG?

You get paid

You are supposed to **create value** out of your
knowledge and experience acquired so far

TA DUTY

- Serving as TA is **compulsory**
- However...
- **Everyone** has something to **teach** and everyone has something to **learn**
- So go for a teaching as well as learning safari

TEACHING SAFARI

- **YOUR EXPERTISE** is **necessary but not sufficient** for you to be a good TA
- Choose a course you **like** and **have** already taken
- or even better...
- The course matches your **research** interest
- Teaching skills acquired from following **TA training courses**

LEARNING SAFARI

- Some **teaching / presenting skills** you could learn (following TA training workshops)
- Instead of pale explanation...
- Demonstrate, gesture, interact, visualize, elicit...
- This greatly benefits your **research presentation** in the future

ANECDOTE

- Stay hungry, stay foolish
- Invitation of classroom observation
 1. Miss Elaine WONG (CEI) and Miss Liwen JING (TAC)
 2. Pre-observation & Post-observation
- Diversity brings prosperity to you
- Asymmetric advantage

NON-ZERO SUM GAME

- Duty !
 - Duty !!
 - Duty !!!
- Engagement !
 - Teaching and learning safari !!
 - “win-win” !!!

Last night...

Hong Kong is a beautiful city
HKUST is a beautiful campus

Enjoy your life here!
